LinkedIn: www.linkedin.com/in/mrdm09

CAREER SUMMARY

Civil Engineering fresher with knowledge of construction planning, materials, and structural analysis. Familiar with software tools like AutoCAD and Primavera. Seeking an entry-level opportunity to utilize technical skills and gain hands-on experience in real-world projects.

ACADEMIC QUALIFICATIONS

Birla Vishvakarma Mahavidyalaya, Vallabh Vidyanagar Pursuing B. Tech in Civil Engineering - CPI: 7.3/10	2022- 2026
S B Polytechnic Vadodara Diploma in Civil Engineering - CPI: 8.49/10	2020-2023
Shree H.S. Mahida High School Secondary Education – 67%(10 th)	March 2020

EXPERIENCE

➤ Internship Experience :-

[Shreeji Construction, V.V. nagar] Construction of Pragat Pranghan Residential Building (24/01/2023 to 14/02/2023).

- Assisted in site supervision, material management, and execution of construction work for the *Pragat Pranghan Residential Building* project.

➤ [Shreeji Construction, V.V. nagar] Prajapita Brahma Kumaris Ishwariya vishwa vidyalay (11th June 2024 to 27th June, 2024).

- Monitored daily site activities, quality control, and project coordination at the *Prajapita Brahma Kumaris Ishwariya Vishwa Vidyalaya* project.

➤ [BVM engineering collage] Structural Engineering Software & field practices (16th to 28th June 2025).

- Completed training in structural engineering software and field practices, gaining practical knowledge of structural analysis, drafting, RCC and steel structure concepts, load calculations, and interpretation of structural drawings. Participated in practical sessions related to construction techniques, quality control, and site management. Also attended an industrial site visit at Atlanta Electricals for practical exposure to real construction activities, safety practices, and project execution methods.

TOOLS & SOFTWARE

Engineering & Simulation Tools:

AutoCAD | STAAD.Pro | SketchUp 3D | QGIS | Primavera | Revit

Data Analysis & Visualization:

Microsoft Excel | MATLAB | Minitab |

Other Tools:

MS Office (Word, PowerPoint, Excel, Access) | Adobe Photoshop | Canva | Filmora | Capcut

ACADEMIC PROJECTS

Road Accident Analysis Using QGIS:

7th Sem

A Spatial Approach for Identifying High-Risk Locations along S.P. Ring Road, Ahmedabad

Performed GIS-based road accident analysis using QGIS software to identify accident hotspots and black spots along S.P. Ring Road, Ahmedabad. Collected and analyzed accident data using spatial mapping, heat maps, and density analysis techniques to study traffic patterns, road safety issues, and accident-prone locations. Proposed suitable road safety and traffic management measures based on the analysis.

Accident Analysis and Prediction Model Using Artificial Neural Network (ANN)

End Sem

Developed an ANN-based accident prediction model using MATLAB and QGIS to analyze road accident patterns and identify high-risk locations along the Ahmedabad–Vadodara Expressway. Performed accident data analysis, spatial mapping, visualization, and severity classification using machine learning techniques. The project included blackspot identification, accident forecasting, and recommendation of road safety improvement measures based on traffic, roadway, and environmental factors.
